APR Instructional Allied Health 2022-23 Latest Version

Annual program review for Allied Health, reviewing the 2022-23 Academic Year

APR Instructional

Annual Course Student Learning Outcome Data: Version by Deeds, Brad on 01/31/2024 18:54

CSLOs	Expected/Benchmark Performance	Actual Performance (Aggregate of All Terms)
HEA106 - Emergency Medical Responder		
Describe the history and origins of the EMS system. (Active from Summer 2018)	70.00%	100.00%
Describe the legal and ethical responsibilities of the	70.00%	100.00%
Emergency Medical Responder. (Active from Summer 2018)		
Describe the roles and responsibilities of the Emergency	70.00%	100.00%
Medical Responder and provide appropriate emergency		
care. (Active from Summer 2018)		
Meet certification requirements for cardiopulmonary	70.00%	77.78%
resuscitation (CPR) and automated external defibrillation		
(AED) training. (Active from Summer 2018)		
HEA108 - Emergency Medical Responder (Refresher)		
Describe the history and origins of the EMS system.	70.00%	0.00%
(Active from Fall 2015)		0.007.
Describe the legal and ethical responsibilities of the	70.00%	0.00%
Emergency Medical Responder. (Active from Fall 2015)	70.50%	0.00 //
Describe the roles and responsibilities of the Emergency	70.00%	0.00%
Medical Responder and provide appropriate emergency		
care. (Active from Fall 2015)		
Demonstrate contemporary techniques in the treatment	70.00%	0.00%
and care of injuries and trauma. (Active from Fall 2015)	70.00%	0.00%
Meet re-certification requirements for cardiopulmonary	70.00%	0.00%
resuscitation (CPR) and automated external defibrillation		0.00%
(AED) training. (Active from Fall 2015)		
HEA149 - Introduction to Medical Ethics and Law		
Describe and apply a variety of major ethical theories to real-	70.00%	0.00%
life health care situations. (Active from Fall 2015)		0.00%
Describe the requirements of confidentiality, disclosure, and	70.00%	0.00%
informed consent in primary health care relationships.		
(Active from Fall 2015)		
Analyze multicultural perspectives that may affect ethical	70.00%	0.00%
decisions in health care. (Active from Fall 2015)		
HEA119A - Introduction to Physical Therapy Aide		
Describe the role and scope of the Physical Therapy Aide,	70.00%	0.00%
including related privacy issues. (Active from Fall 2015)		
Demonstrate professional communication and personal	70.00%	0.00%
presentation skills. (Active from Fall 2015)		
Identify basic anatomical structures and describe or	70.00%	0.00%
demonstrate basic human movement principles. (Active from		
Fall 2015)		
HEA140B - Emergency Medical Technician (Santa Clara		
County EMS Approved)		
Demonstrate appropriate critical thinking and skills in the	70.00%	95.65%
assessment of illness and/or injury of a person involved in		
an emergency situation. (Active from Summer 2016)		
Apply emergency treatment principles and techniques.	70.00%	95.65%
(Active from Summer 2016)	. 5,00%	00.00%
Demonstrate the ability to render quality patient care to	70.00%	95.65%
OSHA and California Code of Regulation standards. (Active	. 5.50%	00.00%
from Summer 2016)		
HEA140C - Emergency Medical Technician (EMT)		

CSLOs	Expected/Benchmark Performance	Actual Performance (Aggregate of All Terms)
Demonstrate appropriate critical thinking and skills in the	70.00%	100.00%
assessment of illness and/or injury of a person involved in	70.0070	100.00%
an emergency situation. (Active from Fall 2019)	70,000/	400.00%
2. Apply emergency treatment principles and techniques.	70.00%	100.00%
(Active from Fall 2019)		
Demonstrate the ability to render quality patient care to	70.00%	100.00%
OSHA and California Code of Regulation standards. (Active		
from Fall 2019)		
HEA142A - EMT Refresher (24 hours)		
Properly assess an ill or injured victim. (Active from Winter)	70.00%	100.00%
2020)		
Apply safe and effective emergency treatment. (Active	70.00%	100.00%
from Winter 2020)		
Demonstrate proper AED techniques. (Active from Winter	70.00%	100.00%
2020)	7 6166 78	100.00%
HEA147A - Dental Assisting and Radiology, Part 1		
Demonstrate correct use of basic dental terminology.	70.00%	100.00%
(Active from Summer 2019)		
Describe dental anatomy and common landmarks. (Active	70.00%	100.00%
from Summer 2019)		
3. Demonstrate application of OSHA regulations for dental	70.00%	100.00%
office settings including the maintenance and sterilization of		
instruments and related safety procedures. (Active from		
Summer 2019)		
Demonstrate the ability to work as an entry-level back	70.00%	100.00%
office chairside dental assistant. (Active from Summer 2019)		
HEA147B - Dental Radiology, Part 2		
Demonstrate correct use of basic dental terminology.	70.00%	100.00%
(Active from Summer 2019)	70.0070	100.00%
·	70.000/	400.000/
Describe dental anatomy and common landmarks. (Active	70.00%	100.00%
from Summer 2019)		
Demonstrate application of OSHA regulations for dental	70.00%	100.00%
office settings including maintenance and sterilization of		
instruments and related safety procedures. (Active from		
Summer 2019)		
4. Demonstrate the ability to take manikin full mouth (FMX)	70.00%	100.00%
and bitewing radiographs (BWX). (Active from Summer		
2019)		
HEA147C - Dental Radiology, Part 3 (Externship)		
Demonstrate correct use of advanced dental terminology	70.00%	75.00%
and identification of dental anatomy and landmarks. (Active		
from Summer 2019)		
Describe OSHA regulations applicable to the dental office,	70.00%	75.00%
including the maintenance and sterilization of instruments,	70.00%	73.00%
_		
equipment, and related safety procedures. (Active from		
Summer 2019)		
3. Demonstrate competence in advanced dental radiation	70.00%	75.00%
and safety skills including film exposure, processing,		
mounting, and evaluation. (Active from Summer 2019)		
Demonstrate competence in advanced back office	70.00%	50.00%
chairside assisting. (Active from Summer 2019)		
HEA191AE - Special Topics: Outdoor Emergency Care		
Update		
Demonstrate safe and effective lifts and loads during	70.00%	0.00%
outdoor emergency rescue scenarios. (Active from Fall		
2019)		
Demonstrate effective cardiopulmonary	70.00%	0.00%
. ,		
resuscitation/automated external defibrillator (CPR/AED)		

CSLOs	Expected/Benchmark Performance	Actual Performance (Aggregate of All Terms)
3. Demonstrate the ability to accurately perform patient	70.00%	0.00%
assessment in outdoor emergency situations. (Active from		
Fall 2019)		
HEA191AF - ST: Coronal Polishing		
Demonstrate standard Occupational Safety and Health	70.00%	0.00%
Administration (OSHA) infection control protocols and		
techniques throughout the coronal polishing procedure.		
(Active from Fall 2021)		
2. Demonstrate standard polishing precautions, techniques,	70.00%	0.00%
patient care, and education. (Active from Fall 2021)		
3. Demonstrate the ability to communicate legal and ethical	70.00%	0.00%
requirements throughout the coronal polishing procedure.		
(Active from Fall 2021)		
Accurately describe objectives/goals and perform	70.00%	0.00%
standard of performance for each procedure related to the		
application of coronal polishing while following infection		
control protocols. (Active from Fall 2021)		
5. Describe dental science, legal requirements, basics,	70.00%	0.00%
materials and criteria, preparation factors, and applications.		
(Active from Fall 2021)		
HEA191AG - ST: Pit and Fissure Sealants		
Demonstrate standard Occupational Safety and Health	70.00%	0.00%
Administration (OSHA) infection control protocols,		
precautions, techniques, patient and education throughout		
the pit and fissure sealant procedure. (Active from Winter		
2022)		
2. Demonstrate correct use of sealant materials, sealant	70.00%	0.00%
criteria, preparation factors, acid etching or etchant/bond		
combination, and sealant application, typodonts, simulated		
model and/or mounted extracted teeth. (Active from Winter		
2022)		
Describe dental science, legal requirements, sealant	70.00%	0.00%
basics, materials and criteria, preparation factors, and		
sealant applications. (Active from Winter 2022)		
4. Accurately describe pit and fissure applications, including:	70.00%	0.00%
oral anatomy, histology, physiology, oral pathology,		
normal/abnormal anatomical and physiological tooth		
descriptions, amorphology, infection control protocol, and		
clinical re-call re-evaluation protocols, and evaluation and		
examination. (Active from Winter 2022)		
MOA235 - Introduction to Administrative Medical Assisting		
Demonstrate the skills to properly maintain medical	70.00%	88.89%
records and a medical front office. (Active from Fall 2015)		
Demonstrate the proper skills used in patient contact.	70.00%	88.89%
(Active from Fall 2015)		
Describe patient confidentiality and legal issues as they	70.00%	88.89%
pertain to the medical office. (Active from Fall 2015)		
MOA236 - Basic Principles of Medical Coding		
Correctly code diseases and disease manifestation by	70.00%	0.00%
abstracting information from a patient's health record.		
(Active from Fall 2015)		
Make proper code assignments for physician	70.00%	0.00%
reimbursement. (Active from Fall 2015)	. 0.00 //	0.00%
Demonstrate knowledge of coding abilities which will	70.00%	0.00%
decrease payment denials by third party payers. (Active from	70.0070	0.00%
Fall 2015)		
MOA237 - Medical Insurance Billing		
-	70.00%	100.00%
Properly prepare insurance forms for physician reimburgement. (Active from Fall 2015)	70.00%	100.00%
reimbursement. (Active from Fall 2015)		

CSLOs	Expected/Benchmark Performance	Actual Performance (Aggregate of All Terms)
Apply knowledge of coding principles to decrease denial	70.00%	100.00%
of payment. (Active from Fall 2015)		
Define common insurance, medical, and diagnostic terms.	70.00%	100.00%
(Active from Fall 2015)		
MOA238 - Medical Terminology, Part 1		
Analyze medical words by dividing them into component	70.00%	0.00%
parts. (Active from Fall 2015)		
Relate medical terms to the structure and function of the	70.00%	0.00%
human body. (Active from Fall 2015)		
Correctly spell and pronounce medical terminology	70.00%	0.00%
associated with integumentary, skeletal, muscular, digestive,		
cardiovascular, blood and lymphatic, and respiratory		
systems. (Active from Fall 2015)		
MOA240 - Medical Terminology, Part 2		
Assemble the three parts of medical terms and use them	70.00%	0.00%
to build medical terms appropriately. (Active from Summer		
2018)		
2. Differentiate and correctly spell and pronounce medical	70.00%	0.00%
terms related to the urinary, endocrine, nervous, sensory,		
and reproductive systems. (Active from Summer 2018)		
3. Apply medical terms in practical applications, including	70.00%	0.00%
reading medical records and lab reports. (Active from		
Summer 2018)		
MOA241 - Medical Terminology		
Define basic medical terminology relevant to human	70.00%	100.00%
anatomy, physiology, diseases, medical procedures and		
treatments, including medical abbreviations, for all body		
systems. (Active from Summer 2021)		
2. Break down medical terms and identify word parts. (Active	70.00%	100.00%
from Summer 2021)		
3. Build medical terms using appropriate word parts. (Active	70.00%	100.00%
from Summer 2021)		
MOA249 - Medical Ethics and Law		
Identify aspects of State and Federal laws that apply to	70.00%	100.00%
healthcare practice. (Active from Summer 2021)		
2. State aspects of medical ethics relating to health care.	70.00%	100.00%
(Active from Summer 2021)		
Apply ethical principles to ethical dilemmas. (Active from	70.00%	100.00%
Summer 2021)		
MOA131B - Special Topics: Introduction to Medical Ethics		
and Law		
Describe and apply a variety of major ethical theories to	70.00%	0.00%
real-life health care situations. (Active from Spring 2020)	70.000	0.000
2. Describe the requirements of confidentiality, disclosure,	70.00%	0.00%
and informed consent in primary health care relationships. (Active from Spring 2020)		
, , ,	70.009/	0.009/
Analyze multicultural perspectives that may affect ethical decisions in health care. (Active from Spring 2020)	70.00%	0.00%
MOA236A - Principles of ICD Medical Coding		
·	70.00%	77 700/
Accurately code diagnoses utilizing the International Classification of Disease Manual (ICD 10-CM). (Active from	70.00%	77.78%
Summer 2021)		
Accurately code to the highest degree of specificity.	70.00%	66.67%
(Active from Summer 2021)	70.0076	30.07 /6
Accurately apply and utilize coding conventions. (Active	70.00%	66.67%
from Summer 2021)	70.00 / 0	00.07 /0
MOA236B - Principles of CPT Medical Coding		
Accurately code procedures using Current Procedural	70.00%	85.71%
Terminology (CPT) coding book. (Active from Summer 2021)	7 0.00 /6	65.7176

CSLOs	Expected/Benchmark Performance	Actual Performance (Aggregate of All Terms)
2. Demonstrate medical terminology comprehension and	70.00%	85.71%
application. (Active from Summer 2021)		
3. Apply anatomical principles as they relate to the major	70.00%	85.71%
body systems. (Active from Summer 2021)		
MOA236C - Electronic Health/Medical Records		
1. Analyze the major components of an Electronic	70.00%	100.00%
Health/Medical Record (EHR/EMR) and its related purpose		
for the creation and the maintenance of the patient health		
care record. (Active from Summer 2021)		
2. Apply the necessary skills for the application of Electronic	70.00%	100.00%
Health/Medical Records (EHR/EMR) within the work		
environment. (Active from Summer 2021)		
3. Utilize an interactive educational Electronic	70.00%	100.00%
Health/Medical Record (EHR/EMR) software. (Active from		
Summer 2021)		

APR Questions Tableau: Version by Deeds, Brad on 02/01/2024 17:48

Using the Data Provided (https://10az.online.tableau.com/#/site/ltcc/views/ProgramReview/LTCCProgramReviewSummary?:iid=1) please provide the number of students (headcount) that are served by the discipline.

Dental Assisting: up to 27 annually, Medical Office Assistant: 121, Emergency Medical Services (Emergency Medical Technician and Emergency Medical Responder): 121 = 269 total Using the Data Provided (https://10az.online.tableau.com/#/site/ltcc/views/ProgramReview/Demographics?:iid=1), identify the populations served by the discipline. Are there any inconsistencies? Does the Population served reflect the population of the college? If not, why, and how can the discipline serve a population more reflective of our community?

Medical Office Assisting serves a diverse student population with up to 52% Hispanic/Latinx, 13% Asian/Pacific Islander, and 12% African American/Black. Dental Assisting is another Allied Health program with a diverse student cohort, with upwards of 83% of students identifying as Hispanic/Latinx. EMT over the last four years have served between 20 - 29% Hispanic/Latinx students, which is below community demographic distribution and overall college representation, and presents an opportunity for recruiting more culturally diverse students into the program, along with resources and supports to enable students to successfully pass and to help the program deliver a more diverse skilled workforce to industry partners.

Using student success data (https://10az.online.tableau.com/#/site/ltcc/views/ProgramReview/SuccessRatesOverall?:iid=1), identify any trends in successful completion of courses.

Are there particular courses (https://10az.online.tableau.com/#/site/ltcc/views/ProgramReview/SuccessRatesbyCourse?:iid=1) students are struggling in?

Are there any demographics that are less likely to complete certain courses in the discipline?

What steps need to be taken to support students and the department in meeting its equity obligations?

Student success and completion rates in EMT and Dental Assisting appear to be consistent across student demographic groupings, while a review of the data for MOA students shows a slight equity gap with students identifying as Hispanic/Latinx succeeding at slightly lower rates.

Are there any courses lacking Title V Updates?

If so, how many and why?

(Please check your courses in eLumen for the most recent list of courses that require updates.)

Faculty in related Allied Health disciplines have been assigned Title V updates and are currently sending through a number of Course Outlines of Record through the curriculum committee. The goal is that all outstanding Title V updates will be completed within the next 18 months, along with potential course deactivations.

Describe the approach to scheduling in terms of offering a balance of Face to Face (F2F) and Online opportunities for students.

Scheduling in Allied Health depends upon the course, with all Dental Assisting courses F2F, EMT has evolved into a hybrid model, MOA being all distance education. Faculty have reported being satisfied with current modalities offered, but there may be potential to add more F2F/Hybrid EMS offerings in the future.

Are there any insights specific to this discipline regarding scheduling modality in terms of success rates,

student retention, or course cancellations?

Success rates and student retention rates remain high across Allied Health programs, and cancellations have varied due to lack of student enrollments and challenges with instructor coverage, which has been addressed by the recent hire of a full-time, tenure-track EMS faculty member.

Are the full-time faculty teaching the courses with the most face to face students? Why/why not?

Yes, the one full-time faculty member in EMS is currently teaching the hybrid EMT course, along with 25 other adjunct faculty and Instructional Assistants.

Are staffing levels adequate to fulfill the purpose of the program?

EMT in particular is investing in building its instructional team to enable future department expansion, and Dental Assisting has onboarded new adjunct faculty in recent years to help cover the various courses and sections offered throughout the year.

What professional development opportunities have faculty in this discipline taken advantage of? Are

there any unmet professional development needs?

To address any equity gaps (e.g., Hispanic/Latinx students in MOA), instructors will be encouraged to participate in the Cultural Fluency Teaching Academy along with other DEIM trainings and efforts available through LTCC, and encouraged to reflect in their DEI addenda during the Title V update process through curriculum.

Where applicable, outline and explain any budget shortfalls for this discipline.

Emergency Medical Services has invested significantly in training equipment and supplies since the arrival of the full-time tenure-track faculty member in summer 2023, with a need for more investments in the next year. Dental Assisting has a continual need for updated and upgraded equipment, and the College works in collaboration with South Tahoe High School to address deficiencies and identify potential funding sources.

If additional financial resources are needed, please describe how they will increase student success, retention, or completion.

The EMS program would benefit from an Ambulance Simulator (available through SimRig or other vendors) to provide a realistic training environment. The acquisition of the Ambulance Simulator would enable students to perform skills training and testing even in inclement weather, and would provide a better-trained workforce for Cal-Tahoe EMS and other agencies, which hires a number of program graduates to work on ambulances immediately out of the program. Simulators cost upwards of \$500k and would require dedicated classroom space, so there are a number of considerations prior to the college moving towards trying to identify potential funding sources.

Using the SLO Data above, are there any SLOs for any particular courses that students are not successfully understanding? How do you plan to address this?

SLOs around the Dental Assisting Externship (working chairside with actual dental patients) and Medical Coding for MOA are two areas for potential support and improvement, and will be discussed with instructors at the upcoming advisory committee.

What are the major strengths of your department?

Industry partnerships, professional instructors currently working in the field, strong job opportunities and job placement for students in Dental Assisting, Medical Office Assisting and EMT.

In what ways could your department improve to better meet the needs of the College and support

student success?

Continue to grow the EMS program, including potential summer sections and/or future second course offerings in Fall and/or Spring quarters, the possibility of adding a Wilderness EMT section, and continued support of MOA and Dental Assisting to help local doctor and dentist offices to connect with students and fill open positions.

What are the biggest challenges your department may face in making these improvements?

Staffing and instructor capacity, along with facilities. The EMS program in particular is in urgent need of larger, more flexible instructional space to break out into skills/lab training, along with dedicated spaces for a decommissioned ambulance and potentially and ambulance simulator to provide a more realistic training environment.

Identify any other questions, comments, suggestions, or concerns you may have.

A Tahoe Basin Public Safety Training facility is urgently needed for EMS, along with Fire, Forestry and Law Enforcement training. The current (single small) classroom available for EMT is insufficient for training, and an apparatus bay connected to a training tarmac would allow the program to acquire and train on a decommissioned ambulance.

Dean Review : Version by Deeds, Brad on 01/31/2024 18:55
